

Says

What have we heard them say?  
What can we imagine them saying?

Thinks

What are their wants, needs, hopes, and dreams?  
What other thoughts might influence their behavior?

This act delves India's agricultural cultivation, providing a comprehensive visual exploration of key aspects and trends in the agricultural sector.

By harnessing the power of Tableau, provides an interactive experience for readers to explore the intricates of India's agricultural cultivation

Agriculture is the backbone of the Indian Economy

The agricultural industry places a high value on farming "experience"

This was the act by the government for people welfare and provides a good agricultural products to the people

For every sector these should be a act because of act only the sector can grow in the nation

India is a global agricultural powerhouse

Design thinking is a best practice for solving complex or "wicked" problems and is ideal for today's agriculture

India's Agricultural crop production Analysis (1997-2021)

I gathered the information from some farmers

I search youtube

The farmers who succeed are the ones who are going to incorporate new technologies.

My grandfather used to say that once in your life you need a doctor, a lawyer, a policeman, and a preacher. But every day, three times a day, you need a farmer."

I search the Google and I studied the topic related in Wikipedia

I brows the Google website

The farmer is the only man in our economy who buys everything at retail, sells everything at wholesale, and pays the freight both ways."

It is not wrong to say that the food we eat is the gift of agriculture activities and Indian farmers who work their sweat to provide us this food

Does
